

## The Sage Calendar 2018

We posted the first draft of our 2018 calendar. Now we need your input to know which courses fit for you, and which ones you want us to add just for you.

Your future depends on continuous learning. Sage University provides practical entrepreneurial skills you can use to create any life you desire. We are always improving our curriculum to provide the skills you need to grow.

If you need a service call to talk about where you are headed in your career, e-mail us at [info@sageuniversity.com](mailto:info@sageuniversity.com) so we can schedule your appointment.

Our 2018 calendar is your gateway to success. Please confirm your choices quickly so we can commit to these dates and get your business on track.

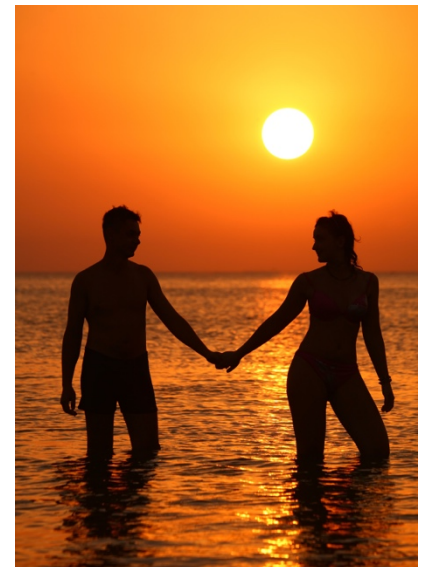

### Innovation: The Leap Frog Model (Dec. 09-10 – Online)

You can increase your income substantially by innovating your business, or by teaching business leaders and entrepreneurs how to innovate. New services bring new business. We can show you the way.

What sets you apart from the field? How do your services stand out? Where should you go from here? If you intend to prosper in the new economy, you must learn to innovate.

Hundreds of books and articles appear every month that try to explain innovation and apply it to solving problems. Academics, scientists, and journalists have a lot to say on the topic. But innovation is much more than fixing what is broken. It is about breaking new ground. We can show you how to do that.

This online course shows you how to think in exciting new ways that make your customers part of your team. Along with delightful, innovative ways to earn your living, this material will enable you to create lucrative consulting projects with other companies that are expanding the boundaries of international business.

### Coach-Mart

Good learning, like great cuisine, is best enjoyed at a leisurely pace. Sage University offers top-flight adult coaching education online for as little as 20€ per month.

Forget about webinars and recorded programs that fill your head with ideas. Our weekly courses invite exciting interaction that creates worldwide friendships as you master the finest coaching rehearsal and business training you can find anywhere in the world.

Learning-by-doing is experiential. You dissolve into the patterns of pleasure that good friends share. Then you automatically pick up the people skills you need to grow your business. We play the *Coach Me if You Can* game to make learning fun. Exciting new classes are available in English, German, Spanish, French, and Russian. Contact us for the link to join this enlightening experience.

## Gift Certificates

Your generosity is the proof that you have transformed from a taker to a conductor, capable of sharing your success and leading other people to find their own way.

To assist you, we are offering Holiday gift certificates you can share with the people you serve. You save 20 % on any regular course you purchase for your clients and friends.

When you purchase a coupon for someone else, you signal your interest in their well-being. You also empower the very people who will form your future business web.

Instead of fruit cake or trinkets under the tree, give the gift that will change the lives of your associates.

## Sweet Life

Only two things are certain—infinite existence and abundant prosperity. Plenty of people deny them due to academic programming. But you would have to wear blinders to miss these simple, self-evident truths.

Thermodynamics declares that everything is grinding down to nothing. Yet the universe has existed for infinity, and we are very much here. Economics is the allocation of scarce resources. Yet our planet feeds and houses almost 8 billion people effortlessly.

We were taught to believe that our existence is terminal and that money is hard to get. Our elders filled us with fear. Death has been portrayed as the enemy, and life as a trail of laborious effort.

Such drivel only makes people scared and mean. When you forget to worry, everything works out fine. That is because it really is truly fine.

You are a marvelous being, living in an astounding reality. New mysteries appear daily. Knowledge is about the past. Curiosity is the brilliant vitality enjoyed by children and childlike people.

Wise folks do what they enjoy with people they love. The rest comes.

## Learn Spanish on Ibiza

The easiest way to learn a new language is by living it. We are expanding our language department by offering total immersion courses. You can take hourly private sessions, or you can take one or more weeks of classroom instruction with other curious people.

When you learn a new language, you make new friends. You also improve your health and mental functioning by looking at the world in a new way.

Typical schools use memorization to teach grammar. You learn the words, but you don't live them. Our approach is experiential. First you do it. Then you say it.

***Spanish from the Heart*** is a fun, flexible way to broaden your horizons so you can open the doors to new adventures in exciting places.

To learn more, or to book your winter classes, e-mail us to begin the conversation you have always wanted to enjoy.

## Human Dynamics (Dec. 16-17 - Online)

Whose got your back? Deep thought is compassion that transcends the ideas and feelings that flow through your mind. You can create new services that benefit millions of people by carefully examining how relationships appear, dissolve, and reconfigure.

AI—artificial intelligence can remember more and do more physical work than we can. But your computer knows nothing of curiosity or love. Machines are useful, but they only have answers. Humans are taking great leaps forward in how we live and love.

Human Dynamics are the subtle interactions of consciousness between people. Call us to learn more.

## TranscendANCE (Dec. 28-31 - Ibiza)

Life is a dance of light and love. The most reliable way to achieve higher states of consciousness is through spontaneous motion. TranscendANCE celebrates the end of the past year and the birth of the next with music, dance, and guided meditation.

Sylvester (New Years) is upon us. Was 2017 everything you hoped it would be? Do you have a clear strategy to bring 2018 into alignment with your true nature? Have you thought through how you want your life to go? This holiday workshop provides the light, clear mind you need to follow your bliss.

Celebrating is the most joyful pathway to discovering the divine in our human nature. We invite you to join us on Ibiza right after the traditional holidays for a genuine celebration of living.

Bring your costumes, wardrobes, and theatrical curiosity. We will provide the space and the video studio to capture images of the best time of your life.

## Self-Actualization (Jan. 02-07 - Ibiza)

A few intrepid people reach a point in life where they can surrender absolutely to reality. They pay a great price to relinquish cherished ideologies and false connections. Self-Actualization is the event that can take you beyond fake news, false politics, and phony values. You take this when you are ready to be you.

Nirvana is the act of dying, and then living on with the perspective of one who cannot be influenced by the crowd or by apparent events that toss the masses to and from. What would you do about anything if you were dead? When you can live without care, you embrace the flow of higher intelligence. Effort and struggle disappear. You are free. If it is time for you, we will see you on Ibiza to begin the new year as a new person.

## Top Gun (Jan 15.-Feb 26.)

Joan Garbo inspired us to commit our lives to integrity. By doing our best in business, we founded Sage University and assisted thousands of people to start their own enterprises. Now Joan will conduct 7 Monday Night online classes from middle January through February for people who want to form a global Sage team by mastering the art of enrollment.

The first, most important step in a successful life is to find your tribe. By forming partnerships and conducting projects together with other like-minded people, you can achieve more than you ever imagined.

The finest Naval aviators attend Top Gun, the pinnacle of flight school. Now Joan, along with the Sage Team, will share the philosophy of personal responsibility and effective action that can take you to the top of your chosen field.

Winter is coming. We plan to spend it playing an intense enrollment game to share the attitude and skills necessary to share the intensity and fun of learning with Sage University. If you believe in our products and services, we invite you to join us for mentorship with one of the finest business women we have ever met.

You pay 200€ for 7 exciting, challenging sessions. By playing 100%, you will find talents and abilities you never knew you had.

There is no greater gift than giving one's life for others. We have been watching the lone wolves fall by the wayside for many years now. The power is with the pack. We learn from each other and we play as a unit. You can join us for a few weeks to feel the power of genuine teamwork. If you go your own way after that, you will have advanced skills to create your own system. You are also welcome to join us to form a global business web that is changing the world, one career at a time.

Harvard and Oxford alumni help each other in every arena of corporate and political collaboration. Sage alumni take the game of entrepreneurship to even higher levels of connection. If you want to know what that is like, invest a couple of hundred bucks and a few Monday afternoons or evenings (depending on your time zone). Find a warm, cozy place to attend, and join us on ZOOM.

You don't have much to lose, and you might have everything to gain by becoming part of something bigger than yourself. Here are the rules:

- Be on time. The ZOOM meetings get locked one minute after the beginning of each class.
- Have fun. Your pleasure is the element that makes this game work for everyone.
- Pour your heart into the enrollment game. Make Sage University a legend.
- Put integrity first above all. Make business the ultimate game in your life.
- Be honest and accountable, even in the small details.
- Honor and respect your classmates and clients.

If you want to play all out for a couple of months, let us know by contacting Mia Sage directly. Experience the miraculous power of teamwork to transform your passion into the adventure you have always wanted.
